Our Guest Speaker Mr. Omar Ayyash, on the 27th of February, who gave us a speech about entrepreneurship in the MENA region, pros and cons of doing business and as well about business environment in the UAE, as an international Hub, as well how to succeed and what to concentrate on. Omar considers himself a "citizen of the world". Coming from Jordanian origin, completing his studies in Austria and in the USA, where he gained his professional experience, he is finalizing his Doctorate of Business Administration focused on how MENA technology entrepreneurs successfully manage working capital. Thank you Omar for the business insights! It was a great talk!

Moreover, Rotary Club Jumeirah is a Hub for visiting Rotarians, who are coming from Dubai from all over the worlds, every week we host new Rotary members from abroad. Last Wednesday we had an opportunity to welcome Rotarian Alexander from Russia, Irkutsk Rotary Club in Siberia and Samer, a Rotarian from Nigeria, originally coming from Morocco, residing in Dubai.

Our night ended with a special moment, of celebrating birthdays of our 3 dear Rotary Club of Jumeirah members, Musa Al Sadoon, Akram Ayoub and Ilgaz Demirel! Thank you dear fellows for your dedication and all these years of service to the club! We are proud and honored to have you in our Rotary Family!

don't forget to pay
your

Next week our guest speaker Danielle Wilson Naqvi, will tell us about herself and her husband who are the founders of The ZB Foundation based in Pakistan who aim to target the uncharted medical area of rare metabolic diseases, especially in the North of the country, and over time, become a compelling soldier for the fight against baby/infant deaths and 3rd world standard pediatric medicine and healthcare facilities. The ZB Foundation have opened their own laboratory in Islamabad where people can finally have the opportunity to provide their babies with a heel prick test (New Born Screening Test) which in the West is taken for granted and ends up saving countless lives. This simple test was not available in Pakistan before we set up the foundation as is provided free of charge to all babies in the country to help diagnose sick babies. The ZB Foundation's pioneering journey is all in the name of the couples late daughter Zahra Beau who died in Dubai at 4 months old – Zahra is the guiding spirit behind this effort to save young lives.
